| On strong pressure to sell stock; and the market, after some irregularity in the first hour of business, developed a firmer undertone later on, which was again followed by further realizing sales.

This was accompanied, too, by a decrease in the volume of transactions from yesterday's large total. Nevertheless, the absorbing power shown by the market was still great, and there were no more indications than there has been at any time in the last few months that the dtrong control over the market affairs that has recently been so conspicuously attested was in any way relaxed.

In the forepart of the day the force of realizations by local operators was assisted by the selling of stocks for London account, the quantity of offerings of this later class being commonly estimated at between 30,000 and 40,000 shares.

Foreign Markets Strong.

As, however, the markets for some securities were all notahly strong on the foreign bourses to-day, owing to a rather 'general lowering of money rates there, it may be doubted whether the orders received here from London to sell stocks should not originate, after all, on this side of the Atlantic.

## GRAIN AND PROVISIONS.

Quotations furnished by E. F. Hutton & Co., members of the New York Stock Exchange and the Chicago Board of Trade. G. Bowie Chipman, manager, 1301 F street northwest.

Chicago, May 12.—Wheat sold heavily in the early part of the day on the weakness of the cables, favorable crop, and weather reports and evident heavy pressure on both new and old crop deliveries. The decline caught a good many stop orders.

Corn was weak during the morning, partly influenced by the weakness in wheat and by the much better weather concitions in the Southwest and fairly good weather conditions in most of the corn States.

Outs were moderately active and somewhat lower during the morning with other grain, showing, however, rather limited interest. There was some selling on favorable conditions.

Provisions were very quiet all day, with prices moving slowly on a light professional trade. WHEAT—

FIGHT ON PRIMARIES

Opposition to the System Is Strong in Virginia.

WILL BE ISSUE AT ROANOKE

Friends and Foes of the Present Law Lining Up for Expected Bitter Contest in Coming State Convention-Judge Duke Foremost in Opposition to Popular Nominations.

pecial to The Washington Herald. Richmond, Va., May 12.-Political revolutions do not usually go backward; and, as a rule, when reforms come in party affairs, they come to stay. However, there are exceptions to every rule. The active and spreading opposition which has eveloped to the State primary sys tem has aroused its friends to put forth their best efforts to save it, thus bring ing on a fight, the culmination of which promises to constitute one of the sensa tional features of the approaching Demo cratic convention in Roanoke.

When Judge R. T. W. Duke, of Charottesville, a candidate for governor, made his anti-primary declaration in a recent meeting of the State Democratic committee, it was regarded simply as the expression of one man, and inasmuch as the remark that "he was opposed to all manner of primaries" came as a mere incident to a debate on another proposition, but little attention was paid o it at the time. But the fight has now developed into something serious. Only a few days ago a strong party leader, who is earnestly in favor of the present system, stated that he was deeply concerned regarding its fate in the coming

Poll Shows Strong Opposition, Shortly after the utterance of Judge Duke against popular nominations, Col. A. M. Bowman, of Salem, made a poll of the house of delegates, then in session, and declared that the result was eminently satisfactory to those who, like himself, believe the system ought to be abolished. This was move number two on the part of the opposition. Then came 814 the election of John Whitehead, of Norfolk, as a delegate to the State convention. Whitehead has always been violently opposed to primaries, and, being a man of great activity and determination, he at once took up the leadership of the fight in his immediate vicinity.

Perhaps the most direct and striking anti-primary development up to this time, Quotations furnished by E. F. Hutton & Co., members of the New York Stock Exchange and the New York Cotton Exchange, G. Bowie Chipman, manager, 1801 F street northwest.

## "WHAT HAS HE DONE ?"

Napoleon's Famous Question. -Napoleon's Famous Question.

It has taken years of expert, painstaking effort to build up my reputation to the point where it now stands. To keep it untarnished—if possible, to enhance it—is my ambition. My work as a builder is known to many of you. My record (kindly look it up) answers "What has he done?" When looking for a builder kindly investigate
